From The Alumni Corner

My journey at **Jaipuria Institute of Management, Noida**, has been a transformative experience marked by growth, learning, and self-discovery. Specializing in finance and business analytics, I entered the institute with confidence in my abilities, but Jaipuria helped refine and channel them into professional strengths. The learning environment went beyond academics, encouraging holistic development through participation, leadership, and experiential learning.

A major turning point in my journey was my association with the Student Executive Council (SEC), which provided a platform to understand and enhance my leadership and communication skills. It allowed me to take ownership, manage responsibilities, and work collaboratively with peers. Serving as the **president of the Academic Program Committee** was another defining milestone that strengthened my decision-making, problem-solving, and team management abilities. Leading with empathy and ensuring smooth academic coordination helped me grow both personally and professionally.

Jaipuria's robust placement support, strong industry exposure, and constant faculty guidance played a crucial role in shaping my career trajectory. Securing a **Pre-Placement Offer (PPO)** from **Deloitte** was a result of this comprehensive development and mentorship. My time at Jaipuria has not only equipped me with knowledge and skills but also instilled in me the confidence, clarity, and purpose to pursue a meaningful and successful professional journey.

Student Success Story

From Gorakhpur to Noida, the journey has been nothing short of a roller coaster — full of learning, growth, and unforgettable experiences. I'm proud to share that I've been placed at **Motilal Oswal Financial Services Ltd.** as a **Relationship Manager – Wealth**. This milestone reflects the continuous learning, guidance, and support I've received throughout my MBA journey at Jaipuria Institute of Management, Noida.

The institute's curriculum, which perfectly integrates academic learning with practical exposure, played a crucial role in preparing me for this opportunity. My summer internship as a market research and sales strategy intern further strengthened my understanding of sales and marketing strategies, client handling, and real-world financial dynamics — helping me bridge the gap between classroom concepts and industry application.

Being elected as the **Vice President of the Media Relations Committee** was another transformative chapter. Beyond academics, I actively participated in committees, events, and leadership roles, which enhanced my ability to work in teams, communicate effectively, and lead with responsibility. These experiences helped me develop confidence, adaptability, and leadership skills that I will carry forward into my corporate career.

A heartfelt thanks to my parents, the placement cell, and the faculty of Jaipuria for their continuous support, mentorship, and encouragement throughout this journey. Each step, challenge, and achievement has contributed to shaping the professional I am today.

Here's to new beginnings, endless learning, and creating impact.

From the Campus Corner

This frame isn't just a window; it's your checkpoint. The bricks behind you are lessons learned, the grounding you carry. The vines climbing upward? That's growth that doesn't ask for applause, only persistence. And the skyline outside stands like ambition calling your name. This view dares you to decide: stay seated in comfort, or step into the unknown. Don't keep your potential on "pause," waiting for some perfect timing. Take the step. Even a small one counts. Your path is already opening. The question is: will you walk through?
